

Weekly Report

Yuxin Ma

09.07.2015 - 09.13.2015

Projects

Spark Workflow System

This week I discussed with Prof. Chen about the current progress.

1. Intermediate Results

The intermediate clustering results from the executor nodes can be extracted as standard outputs now. The next step is to formulate the structure in order to use them easily.

2. Paper Writing

References for the section of Related Work has been organized.

Huawei Large Graph Project

The example dataset has been imported to the **Neo4j** database for further utilization.

Plan for the Next Week

For Spark Workflow System:

- Write the sections of Introduction, Related Work and Overview.

For Huawei Large Graph Project:

- Temporarily suspended.
